EAPS PSPSPS PET CALENDAR

The **EAPS Committee on Planning the Selection of Purdue's Special Pets (PSPSPS)** is open for business to start working on our department's Pet Calendar for the upcoming year! For our newcomers, this calendar is meant to showcase all of the adorable pets in our department and give them the recognition they deserve. Please fill out the following form to be included in this year's edition!

<https://forms.gle/t7PsVpkDRQgt1Lxo6> (Google login required to submit form.) The calendar will cover January-December of 2025. If you have multiple pets that you would like included, please include them in the same photo. Otherwise, only one pet can be submitted, as challenging as that may be. If anyone has important dates they would like included in the calendar, those can be added as well (pending committee approval outlined in the PSPSPS handbook). See the attachments on this email for an example month.

The calendar submission deadline is **Friday, September 6, 2024**. We will send out a reminder email as the date approaches.

Calendars will cost \$15 each and the money will support the EAPS Graduate Student Assembly. More emails to follow with instructions for placing orders. Please do not hesitate to reach out to melendl@purdue.edu if you have any questions.

PurdueGISDay2024-2

Purdue Libraries and School of Information Studies invites you to attend and present at Purdue GIS Day 2024: Exploring GeoAI on Thursday, November 7, 2024 in STEW 214.

Take your research to the next level by presenting it to leading scholars and members of the broader

GIS community. Undergraduate and graduate students can submit proposals for a poster presentation and/or a 5-minute lightning talk on any GIS-related topic. This is a great opportunity to practice public speaking and add noteworthy skills to your resume. The best of the student posters and presentations will receive cash awards.

The conference will also feature keynote speaker Gregory Brunner, an experienced scientist, award-winning professor, and principal data scientist at Esri—global market leader in GIS software, location intelligence, and mapping. He will be speaking about the rapid growth of the AI model ecosystem and the potential impact it has and will have on GIS in his talk titled, “The Burgeoning AI Model Ecosystem and Its Potential Impact on GIS.”

Please submit your proposal by September 30, 2024 which will also get you registered for the conference to receive a free T-shirt and to attend the panel discussion lunch. [Submit proposals and register for the event](#)
